Public release date: Jan 01, 1969

## **DISCLAIMER**

By accessing and using the Alberta Energy website to download or otherwise obtain a scanned mineral assessment report, you ("User") agree to be bound by the following terms and conditions:

- a) Each scanned mineral assessment report that is downloaded or otherwise obtained from Alberta Energy is provided "AS IS", with no warranties or representations of any kind whatsoever from Her Majesty the Queen in Right of Alberta, as represented by the Minister of Energy ("Minister"), expressed or implied, including, but not limited to, no warranties or other representations from the Minister, regarding the content, accuracy, reliability, use or results from the use of or the integrity, completeness, quality or legibility of each such scanned mineral assessment report;
- b) To the fullest extent permitted by applicable laws, the Minister hereby expressly disclaims, and is released from, liability and responsibility for all warranties and conditions, expressed or implied, in relation to each scanned mineral assessment report shown or displayed on the Alberta Energy website including but not limited to warranties as to the satisfactory quality of or the fitness of the scanned mineral assessment report for a particular purpose and warranties as to the non-infringement or other non-violation of the proprietary rights held by any third party in respect of the scanned mineral assessment report;
- c) To the fullest extent permitted by applicable law, the Minister, and the Minister's employees and agents, exclude and disclaim liability to the User for losses and damages of whatsoever nature and howsoever arising including, without limitation, any direct, indirect, special, consequential, punitive or incidental damages, loss of use, loss of data, loss caused by a virus, loss of income or profit, claims of third parties, even if Alberta Energy have been advised of the possibility of such damages or losses, arising out of or in connection with the use of the Alberta Energy website, including the accessing or downloading of the scanned mineral assessment report and the use for any purpose of the scanned mineral assessment report so downloaded or retrieved.
- d) User agrees to indemnify and hold harmless the Minister, and the Minister's employees and agents against and from any and all third party claims, losses, liabilities, demands, actions or proceedings related to the downloading, distribution, transmissions, storage, redistribution, reproduction or exploitation of each scanned mineral assessment report obtained by the User from Alberta Energy.

ECONOMIC MINERALS

FILE REPORT No.

PHS-AF-025(1)

INDEXING DOCUMENT No. 700290

Dear Sir

Enclosed are a memorandum of surrender on prospecting permit no. 25, a declaration of expenditures, assay reports, a map of the area, the permit itself and the following report:

The "A" zone, as located on the map was found by me, prior to the leasing arrangements and was exposed over four ft. and assayed as shown in Atlas Testing Report.

After leasing arrangements were made in my name, backed by Falconbridge Nickel Mines of 300, 1112 West Pender St, Vancouver 1, B.C. (Dr. A. Smith), myself and helper located the B, C, and D zones as located on the map. These zones assayed as reported in the Coast Eldridge assay reports included. Vanadium assays were done on composites of each zone. I later had a few Uranium assays done from these zones (trace).

The assays, while interesting are obviously not good enough. This year I did a lot of work trying to extend the zone south east and particularly north west, without success. The A zone had been trampled to about 8 ft. (not completely uncovered)

[Redacted Signature] Provincial Assayer

No phosphate was located in the lease area north west of Wapisiwi creek after several weeks work. Some uranium assays were done on shales (.005% to trace).

There seemed to be no justification for diamond drilling.

In consideration of the above, I suggest I am entitled to a return of the \$2,500 deposit, which will be returned, by me, to Falconbridge Nickel Mines, at 500, 1112 West Pender St, Vancouver.

Yours truly
