DISCLAIMER

By accessing and using the Alberta Energy website to download or otherwise obtain a scanned mineral assessment report, you ("User") agree to be bound by the following terms and conditions:

- a) Each scanned mineral assessment report that is downloaded or otherwise obtained from Alberta Energy is provided "AS IS", with no warranties or representations of any kind whatsoever from Her Majesty the Queen in Right of Alberta, as represented by the Minister of Energy ("Minister"), expressed or implied, including, but not limited to, no warranties or other representations from the Minister, regarding the content, accuracy, reliability, use or results from the use of or the integrity, completeness, quality or legibility of each such scanned mineral assessment report;
- b) To the fullest extent permitted by applicable laws, the Minister hereby expressly disclaims, and is released from, liability and responsibility for all warranties and conditions, expressed or implied, in relation to each scanned mineral assessment report shown or displayed on the Alberta Energy website including but not limited to warranties as to the satisfactory quality of or the fitness of the scanned mineral assessment report for a particular purpose and warranties as to the non-infringement or other non-violation of the proprietary rights held by any third party in respect of the scanned mineral assessment report;
- c) To the fullest extent permitted by applicable law, the Minister, and the Minister's employees and agents, exclude and disclaim liability to the User for losses and damages of whatsoever nature and howsoever arising including, without limitation, any direct, indirect, special, consequential, punitive or incidental damages, loss of use, loss of data, loss caused by a virus, loss of income or profit, claims of third parties, even if Alberta Energy have been advised of the possibility of such damages or losses, arising out of or in connection with the use of the Alberta Energy website, including the accessing or downloading of the scanned mineral assessment report and the use for any purpose of the scanned mineral assessment report so downloaded or retrieved.
- d) User agrees to indemnify and hold harmless the Minister, and the Minister's employees and agents against and from any and all third party claims, losses, liabilities, demands, actions or proceedings related to the downloading, distribution, transmissions, storage, redistribution, reproduction or exploitation of each scanned mineral assessment report obtained by the User from Alberta Energy.

SHELL CANADA LIMITED
REPORT ON
SULPHUR PROSPECTING PERMIT NO. 82
WOOD BUFFALO AREA, ALBERTA

ECONOMIC MINERALS

FILE REPORT No.

S-AF-082(1)

In accordance with the terms of the Agreement dated January 8, 1968 we submit the following report on the exploratory examination carried out during the 1967-68 winter season on the subject permit.

LOCATION:

Sulphur Prospecting Permit No. 82 containing 98,560 acres is located in northern Alberta, Townships 116 to 118, Ranges 2 to 4, West of the 5th Meridian.

FIELD OPERATIONS:

Seismic field party 5, operating for Shell Canada Limited, carried out the drilling of 1055 seismic shot holes over the permit area during January and February, 1968. The holes, which are spaced 300 feet apart, were drilled to a maximum depth of 55 feet by truck mounted 3-1/2 inch auger drills.

The drillers were instructed to look for signs of sulphur and collect samples of the drill cuttings that appeared to contain sulphur. Samples of superficial material containing varying percentages of sulphur were supplied to the drillers to aid in visual examination of the drill cuttings. Enclosure No. 1 shows the location of auger holes examined for sulphur during the drilling program on this permit. No sulphur was observed in the drill cuttings from this prospect and therefore no samples were collected.

O.L. Slind
