DISCLAIMER

By accessing and using the Alberta Energy website to download or otherwise obtain a scanned mineral assessment report, you ("User") agree to be bound by the following terms and conditions:

- a) Each scanned mineral assessment report that is downloaded or otherwise obtained from Alberta Energy is provided "AS IS", with no warranties or representations of any kind whatsoever from Her Majesty the Queen in Right of Alberta, as represented by the Minister of Energy ("Minister"), expressed or implied, including, but not limited to, no warranties or other representations from the Minister, regarding the content, accuracy, reliability, use or results from the use of or the integrity, completeness, quality or legibility of each such scanned mineral assessment report;
- b) To the fullest extent permitted by applicable laws, the Minister hereby expressly disclaims, and is released from, liability and responsibility for all warranties and conditions, expressed or implied, in relation to each scanned mineral assessment report shown or displayed on the Alberta Energy website including but not limited to warranties as to the satisfactory quality of or the fitness of the scanned mineral assessment report for a particular purpose and warranties as to the non-infringement or other non-violation of the proprietary rights held by any third party in respect of the scanned mineral assessment report;
- c) To the fullest extent permitted by applicable law, the Minister, and the Minister's employees and agents, exclude and disclaim liability to the User for losses and damages of whatsoever nature and howsoever arising including, without limitation, any direct, indirect, special, consequential, punitive or incidental damages, loss of use, loss of data, loss caused by a virus, loss of income or profit, claims of third parties, even if Alberta Energy have been advised of the possibility of such damages or losses, arising out of or in connection with the use of the Alberta Energy website, including the accessing or downloading of the scanned mineral assessment report and the use for any purpose of the scanned mineral assessment report so downloaded or retrieved.
- d) User agrees to indemnify and hold harmless the Minister, and the Minister's employees and agents against and from any and all third party claims, losses, liabilities, demands, actions or proceedings related to the downloading, distribution, transmissions, storage, redistribution, reproduction or exploitation of each scanned mineral assessment report obtained by the User from Alberta Energy.

FILE REPORT No.

S-AF-170(2)

Mr. Frank O'Sullivan ,
13838 Ravine Drive,
Edmonton, Alberta

Dear Sir:

RE: Sulphur Permit No. 170

In March of this year I examined the ground on part of your permit for sulphur, in the course of examining several permits nearby, including numbers 106, 128, 165, 166, 169, 173, and 174, in accord with a previous study of air photos to find likely areas.

We took a two-man party from Calgary complete with power drilling equipment, by helicopter into this territory. We were three men in all including the helicopter pilot who helped obtain samples.

The similarities between surface sulphur in West Texas and Northern Alberta are quite striking. Sulphur has been discovered recently downhole in West Texas, below surface-sulphur deposits.

On permits 165 and 169 we found surface sulphur concentrations of 17% and 6% respectively, on the 8 foot level. However, with the sulphur prices now softening and the resulting lack of interest in drilling for sub-surface sulphur, I am recommending that you relinquish your permit.

Yours very truly,

EDWARD LEWIS JONES AND ASSOCIATES
